**REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR § 1.322 FOR
CORRECTION OF OFFICE MISTAKE**

ATTN: Certificate of Correction Branch
Honorable Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

As provided in detail in the attached, the patentee respectfully requests that a Certificate of Correction be granted in the above-identified patent to correct mistakes in a patent, incurred through the fault of the Office.

Under 37 CFR 1.322, "The Commissioner may issue a certificate of correction pursuant to 35 U.S.C. 254 to correct a mistake in a patent, incurred through the fault of the Office, which mistake is clearly disclosed in the records of the Office at the request of the patentee or the patentee's assignee."

The Patentee furthermore requests Expedited Issuance of this Certificate of Correction in accordance with MPEP § 1480.01. Specifically, this section provides that:

In an effort to reduce the overall time required in processing and granting Certificate of Correction requests, the Office will expedite processing and granting of patentee requests where such requests are accompanied by evidence to show

SEP 21 2007

that the error is attributable solely to the Office Where the correction requested was incurred through the fault of the Office, and the matter is clearly disclosed in the records of the Office, and is accompanied by documentation that unequivocally supports the patentee's assertion(s), a Certificate of Correction will be expeditiously issued. MPEP § 1480.01

The following errors appear to have occurred through the fault of the Office, and the patentee respectfully requests correction thereof.

It has come to the patentee's attention that the Patent Office did not properly correct the specification of U.S. Patent No. 7,190,360, pursuant to the *Supplemental Amendment* filed on October 3, 2003. Specifically, in the *Supplemental Amendment* filed October 3, 2003, the Applicant requested the following:

Please replace paragraphs 8 and 9 of page 6 of the specification with the following paragraphs:

~~frequency modulating a reference clock signal and obtaining a modulated clock signal;~~

performing sampling and A/D conversion on an analog image signal on the basis of the ~~modulated~~ a reference clock signal and obtaining a digital image signal;

Instead of replacing paragraphs 8 and 9 of page 6 of the specification, it appears that the Patent Office instead replaced paragraphs 3 and 4 of page 6 of the specification, as noted in the attached copy of page 6 of the specification obtained from the Image File Wrapper.

As a result, errors were introduced into the issued patent by Patent Office error as follows:

At column 3, between lines 5 and 6, --frequency modulating a reference clock signal and obtaining a modulated clock signal;-- should be reinserted. Column 3, between lines 5 and 6, corresponds with page 6, paragraph 3, of the specification.

SEP 21 2007

At column 3, line 7, "a reference clock signal" should be changed back to --the modulated clock signal--. Column 3, lines 6-8, correspond with page 6, paragraph 4, of the specification.

Column 3, lines 18-19, should be deleted in accordance with the original request. Column 3, lines 18-19, correspond with page 6, paragraph 8, of the specification.

At column 3, line 21, "the modulated clock signal" should be changed to --a reference clock signal-- in accordance with the original request. Column 3, lines 20-22, correspond with page 6, paragraph 9, of the specification.

As the errors were incurred through the fault of the Office, a fee is not believed to be necessary. Should it be determined that a fee is necessary, any deficiencies or overages in any fees due in connection with this patent and the requested actions should be applied to Deposit Account No. 50-2280(0756-2016).

Respectfully submitted,

Eric J. Robinson

UNITED STATES PATENT AND TRADEMARK OFFICE

CERTIFICATE OF CORRECTION

PATENT NO : 7,190,360

DATED : March 13, 2007

INVENTOR(S) : Masaaki HIROKI

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 3, between lines 5 and 6, insert --frequency modulating a reference clock signal and obtaining a modulated clock signal;--.

Column 3, line 7, replace "a reference clock signal" with --the modulated clock signal--.

Column 3, delete lines 18-19.

Column 3, line 21, replace "the modulated clock signal" with --a reference clock signal--.

MAILING ADDRESS OF SENDER:

signal; and

supplying the sampled image signal to a corresponding pixel and obtaining an image.

In accordance with a second aspect of the present invention, there is provided a method of driving a semiconductor display device, the method comprising the steps of:

~~frequency modulating a reference clock signal and obtaining a modulated clock signal;~~

~~performing sampling and A/D conversion on an analog image signal on the basis of the modulated clock signal and obtaining a digital image signal;~~

after performing digital signal processing on the digital image signal, performing D/A conversion on the digital image signal on the basis of the reference clock signal and obtaining an improved analog image signal; and

supplying the improved analog image signal to a corresponding pixel and obtaining an image.

In accordance with a third aspect of the present invention, there is provided a method of driving a semiconductor display device, the method comprising the steps of:

frequency modulating a reference clock signal and obtaining a modulated clock signal;

performing sampling and A/D conversion on an analog image signal on the basis of the modulated clock signal and obtaining a digital image signal;
